#### Agnus Dei

After the sign of peace, the priest breaks the host into pieces and prepares the patens or plates of hosts for the assembly. In the early church, "the breaking of the bread" was the name given to the entire Eucharistic liturgy, so central was this action to the meaning of the Christian life. For just as the one bread is broken and given to many people, the many are made one in receiving it.

During this ritual action, we sing an ancient litany, calling on Jesus as the "Lamb of God"—the words used by John the Baptist when he pointed to Jesus walking beside the Jordan River (John 1:29, 36). In calling Jesus "the Lamb of God," John was already pointing to the death that Jesus would die: in giving his life, Jesus would become the Paschal Lamb of the new covenant. During the Mass, when we call on the Lamb of God, we call to mind his self-sacrificing love, his blood poured out for us, and we ask this compassionate Lord for mercy and peace.

Three frogs sat on a log and two decided to jump off.  
How many frogs were left on the log?

One?

Although most people answer "one," the correct answer is "three." Just because the frogs decided to jump off the log does not necessarily mean that they actually did jump.

Is there a gap between what you decide to do and what you actually do?

### NATIONWIDE BULLETIN INSERT

#### Conscience Rights Violated by Sweeping HHS Contraceptive Mandate

In implementing the 2010 Patient Protection and Affordable Care Act (the new health care reform law), the U.S. Department of Health and Human Services (HHS) recently issued a rule *requiring* almost all private health plans to cover contraception and sterilization as “preventive services” for women. The mandate even forces individuals and groups with religious or moral objections to purchase and provide such coverage if they are to receive or provide health coverage at all. This poses an *unprecedented threat* to individual and institutional religious freedom.

The rule includes a religious exemption so extremely narrow that it protects almost no one. It covers only a “religious employer” that has the “inculcation of religious values” as its purpose, primarily employs and serves persons who share its religious tenets, and is a church organization under two narrow provisions of the tax code. A great many religious organizations -- including Catholic colleges and universities, as well as hospitals and charitable institutions that serve the public -- will be ineligible. Individuals and religiously affiliated health insurers will not qualify for the exemption.

The new rule would force insurance plans to cover “*all Food and Drug Administration approved contraceptive methods, sterilization procedures, and patient education and counseling for all women with reproductive capacity.*” Never before has the federal government required private health plans to include such coverage. The FDA-approved “emergency contraception” (EC) drugs that are covered by this mandate can work by interfering with implantation of a newly conceived human being. Also, the drug the FDA most recently approved for EC, “Ella,” a close analogue to the abortion drug RU-486, has been shown in animal tests to cause abortion. Thus, the mandate includes drugs that may cause an abortion both before and after implantation.

**ACTION:** Please send an e-mail message to HHS by visiting [www.usccb.org/conscience](http://www.usccb.org/conscience). Once you send your comments to HHS, you will be automatically invited to send a message to your elected representatives in Congress, urging them to support the Respect for Rights of Conscience Act (H.R. 1179/S. 1467) to ensure that such federal mandates do not violate Americans’ moral and religious convictions.

**MESSAGE TO HHS:** “Pregnancy is not a disease, and drugs and surgeries to prevent it are not basic health care that the government should *require* all Americans to purchase. Please remove sterilization and prescription contraceptives from the list of ‘preventive services’ the federal government is *mandating* in private health plans. It is especially important to exclude any drug that may cause an early abortion, and to fully respect religious freedom as other federal laws do. The narrow religious exemption in HHS’s new rule protects almost no one. I urge you to allow all organizations and individuals to offer, sponsor and obtain health coverage that does not violate their moral and religious convictions.”
